

Chapter 14 Prob 2 UML Diagrams

```
classDiagram
    class Dayofyear {
        -int day
        +Dayofyear()
        +~Dayofyear()
        +static void print(int day)
    }
    class Dayofyear {
        +Dayofyear()
        +~Dayofyear()
        +static void print(int day)
    }
    class Dayofyear {
        +Dayofyear()
        +~Dayofyear()
        +static void print(int day)
    }
```

Dayofyear Class

- int day
- + Dayofyear()
- + ~Dayofyear()
- + static void print(int day)
